ROBERT GUSS

SENIOR FRONT END DEVELOPER

PROFESSIONAL SUMMARY

Senior front-end developer with over eight years of experience. I have taught over 40,000 students through my tutorials, books, courses & podcast.

EMPLOYMENT HISTORY

MAR 2023 - JAN 2024

Solutions Engineer, Airplane Labs, Remote

- Provided technical customer support to developers, helping them debug issues and learn how to use our product (React, TypeScript, Python, SQL, Docker, Bash)
- Updated and maintained documentation, ensuring information architecture was organized and accessible (Next.js, TypeScript, MDX, and Tailwind CSS)
- Created new landing pages for the marketing site, enhancing user experience and driving engagement (Next.js, TypeScript, and Tailwind CSS)
- Developed views, tasks, and templates to streamline processes and improve efficiency (React, TypeScript, Python, and SQL)

APR 2021 - SEP 2022

Developer Experience Engineer, Cypress.io, Remote

- Co-Author of Real World Testing with Cypress - a free curriculum that teaches developers how to test modern web applications with Cypress (Next.js, MDX, Xstate, TypeScript, and Tailwind CSS)
- Created instructional videos, tutorials, and demo applications
- Wrote and maintained documentation
- Created and maintained various plugins, tools, and repos for Cypress and its ecosystem
- Provided expertise to internal teams to help shape, debug, and test upcoming features and releases

DEC 2018 - APR 2021

Senior Software Engineer, InsureMyTrip, Remote

- Integrated modern front-end tools to replace our legacy toolchain
- Educated team on how to use these new tools & technologies (Webpack, Jest, Cypress, Test Cafe, PostCSS & VueJS)
- Developed and established front-end best practices, e.g., code formatting, linting rules & standards
- Implemented Unit testing for front-end applications and a testing culture that did not exist previously
- Identify and implement strategies to improve code quality and reduce technical debt
- Lead code reviews for the engineering team to ensure adherence to coding best practices and standards
- Collaborate with product managers and stakeholders to understand business requirements and translate them into technical solutions.
- Provide mentorship and guidance to junior software engineers to help them grow their skills and knowledge
- Technologies used: HTML, CSS, PostCSS, JavaScript, VueJS, Webpack, Jest, PHP, Python, Cypress, Test Cafe, Git, Swagger/Open API Spec, Apache Airflow, AWS, Docker, Gitlab CI/CD, Linux

2017 - 2018

Web Developer, DNL OmniMedia, Remote

- Designed, developed, created, and maintained websites for clients.
- Created modern front-end tooling for all new client projects
- Technologies used: HTML, CSS, SASS, PostCSS, JavaScript, jQuery, Webpack, VueJS, Gulp, PHP, Vagrant, Git, Luminate Online, Drupal, Pantheon, Docker, Linux.

2015 - 2017

Front-End Developer, inMusic Brands, Cumberland, RI

- Front-end developer for all 14+ company brand websites.
- Designed and developed microsites and landing pages
- Created responsive HTML emails
- Technologies used: HTML5, CSS3, Javascript, jQuery, Foundation Framework, PHP, MySQL, Expression Engine CMS, Linux

EMPLOYMENT HISTORY

2014 - 2020

Web Developer, Freelance, Remote

- Design & Develop custom WordPress themes & sites
- Design & Develop custom Jamstack/static sites
- Collaborate with clients to gather requirements and provide technical expertise on web development projects
- Research and implement new technologies and frameworks to improve website performance and user experience
- Stay up-to-date with the latest web development trends and technologies
- Maintain and update existing websites to ensure they are up-to-date and functioning correctly
